Connecticut Center for Advanced Technology, Inc.

February 21, 2018

Barbara Fernandez
Director – Business Development
DECD
450 Columbus Boulevard
Hartford, CT 06103-1843

Dear Ms. Fernandez,

The Connecticut Center for Advanced Technology, Inc. (CCAT) is currently under contract with DECD to perform work using state owned equipment located at DECD's Innovation Technology Center (ITC) within our Advanced Manufacturing Center. The use of this equipment, the GOM ATOS and the CT Scan NSI X5000, has been limited to projects related to CCAT's OEA/RADE contract with the following exceptions:

Air Force (AFRL) – equipment used for which labor cost was charged to CCAT's Air Force Contract.

UTC – equipment used for which labor cost was reimbursed to CCAT. No charge for equipment use.

CMSCI Projects – equipment used for several CMSCI projects with Connecticut companies (in addition to other equipment located at our AMC) for which labor cost was charged to CMSCI (a differentiated state contract with CCAT).

At no time has CCAT charged any company an equipment use fee for access to the GOM ATOS or the CT SCAN NSI X5000 for CCAT's own commercial gain. If you have any additional questions, please contact me.

Sincerely,

A handwritten signature in blue ink that reads "Elliot A. Ginsberg". The signature is written in a cursive style with a large, sweeping flourish at the end.

Elliot A. Ginsberg
President and Chief Executive Officer
